OBJECTIVE

Secure a challenging web development role where I can leverage my skills in HTML, CSS, JavaScript, and front-end frameworks to create responsive, user-friendly websites. Eager to enhance my knowledge of backend technologies like Node.js and databases, while contributing to innovative projects that improve user experiences.

Skills

Programming Languages: JavaScript

Frontend Technologies: HTML5, CSS3, Bootstrap, jQuery, React.js

Backend Technologies: Node.js, Express.js, RESTful APIs

Database: MySQL, MongoDB

Development Tools: Git & GitHub, Visual Studio Code, Postman

Education

Master In Computer Application GIET, Bhubaneswar, Odisha, INDIA

10/2022 - 06/2024

Bachelor Of Science (B.Sc.) L.B degree College, Odisha, INDIA

06/2019 - 08/2022

Projects

To-Do App

Developed a To-Do List Web Application using HTML, CSS, jQuery, Node.js, Express.js, and MongoDB for efficient task management.

- Frontend: Designed a responsive UI with AJAX-powered real-time updates using HTML, CSS, and jQuery.
- Backend: Built a RESTful API with Node.js and Express.js to handle CRUD operations.
- Database: Used MongoDB with Mongoose for structured data storage and seamless interaction.
- Technologies: HTML, CSS, jQuery, AJAX, Node.js, Express.js, MongoDB, Mongoose.

Square Game

Developed an interactive Square Game using HTML, CSS, JavaScript, and jQuery, providing an engaging user experience.

- Frontend: Designed a responsive UI with animations and event handling using HTML, CSS, and jQuery.
- Game Logic: Implemented dynamic game mechanics with JavaScript, including player interactions and score tracking.
- User Experience: Ensured smooth gameplay with optimized performance and intuitive controls.
- Technologies: HTML, CSS, JavaScript, jQuery.
